

SURVIVING CANCER

A Portrait of Hope

 Upper Chesapeake
Cancer LifeNet

Facing Cancer Together

Linda Dart

Ovarian Cancer

Through this journey I have discovered the importance of Faith, Family and Friends. The three F's have sustained me through the good and the bad. Faith in my Heavenly Father sustained me. Family has a way of bringing joy even in the darkest times. If it were not for my wonderful daughter I would not have laughed my way through this journey. Friends, the old and new have encouraged and helped me. The friends I made at Upper Chesapeake Health Cancer LifeNet were without a doubt very supportive. There are many who are walking the same road and others that are there to help and encourage, which is a true blessing.
